by Gerald Graff

## Synopsis:=====

The book that has taught millions of students to present their arguments as a response to what "they say" has been expanded to define as broadly as possible who's included in "they." Readings demonstrate the moves that matter in academic writing and represent a multitude of perspectives. The Fourth Edition includes an anthology of 40 readings--half of which are NEW--that will prompt students to listen, think, and write about five important issues, including new "How Can We Bridge the Differences That Divide Us?"
