Unhooked: How to Help An Addicted Loved One Recover
by Jason Coombs

Synopsis:=====

Is someone you love addicted? Have you found yourself wondering if all efforts to "help" or "fix" your loved one are really going in the right direction? Addictions to prescription meds, opioids, alcohol and other substances are growing at exponential rates and ripping our families apart. What are the best strategies to help someone in bondage to a substance that drive real results? When Jason Coombs' mother discovered her son was addicted to drugs and alcohol, she searched everywhere for resources and guidance that would grant her a spark of hope. She researched websites on the topic only to find a mixed bag of mediocre suggestions and an array of conflicting opinions. She was desperate for tools that could drive measurable results. Yet, her seemingly endless search for helpful guidance led her down a rabbit hole with no end in sight. Unhooked is the book, written by her recovered son, now leading his own treatment center, she wishes would have been available back then.
